- **Scaling innovation**
- **Looking forward**

SELFIE

is a free, online 'customisable' self-evaluation tool developed by JRC and DG EAC

to help schools in Europe improve their use of digital technologies for teaching and learning

SELFIE is about learning for the digital age
It's NOT about technology

SELFIE

Pilot phase

Following the **DigCompOrg** model and a user consultation survey, the SELFIE pilot:

- took place end Sept – beginning Oct 2017
- in **14 countries**: 11 MS, 1 candidate country, Russia (with UNESCO's IITE) and Georgia
- **12 languages** (9 official EU languages plus Georgian, Serbian, Russian)
- **67.741 users** (headmasters, teachers, students) from **651 schools** (primary, secondary, VET)

Next steps

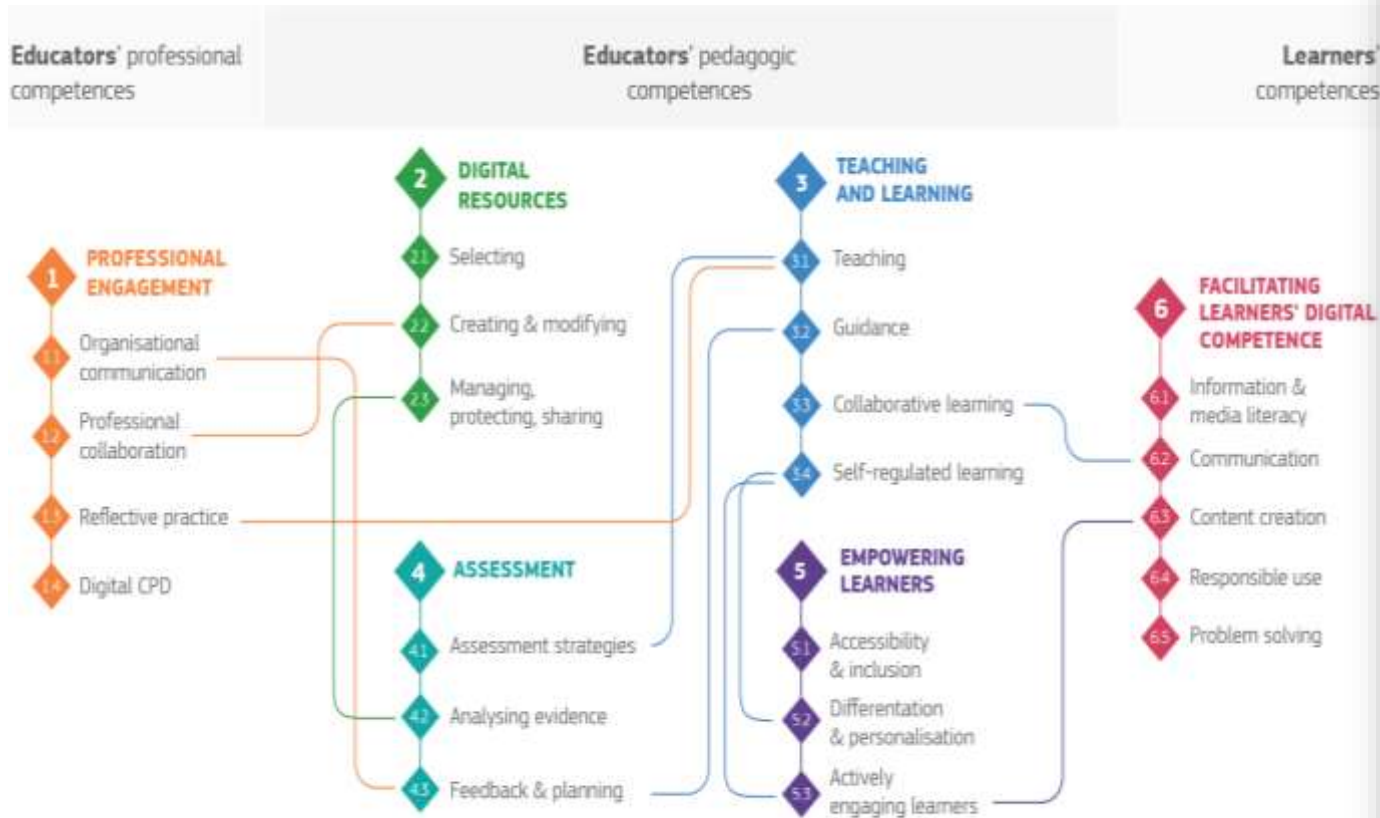

- Until January 2018: Analysis of pilot data and qualitative case studies
- January-February 2018: Final version of SELFIE school tool
- May-June 2018: Phase 2 pilot at bigger scale and system-level
- 2019 onwards: Further deployment to be decided

Challenges

- Governance model?
- Data-policy (no benchmarking)
- Eco-system around SELFIE (e.g. training, support, etc.)?
- Extensions to other sectors (VET, HE, etc.)?
